

CORONAVIRUS (COVID-19) PREVENTION

All Erickson Living-managed communities are taking active and aggressive measures to prevent the spread of COVID-19. Here's what you need to do to protect yourself and others:

If you're experiencing flu-like symptoms, stay at home

Avoid touching your face to reduce the spread of germs

Frequently wash your hands with soap and water for at least 20 seconds. After drying hands, use paper towel to turn off faucet and open door, then discard it

Cover your cough or sneeze with a tissue and promptly discard the tissue and wash your hands

Avoid contact with sick people and those who have recently traveled or been to areas affected by COVID-19

Avoid crowds and practice safe distancing

Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe

If you become sick, contact the on-site medical team or your primary care physician immediately
